

To Whome It May Concern,

I must strongly object to the restruction on satlite radio from broadcasting WEATHER AND ROAD REPORTS.

This is a real service to the travling public and really should be concedered a must for the travling public. When I am at home I want local News, but when I am Planning for travling traffic and weather updates are very important to me, for make deceison on routeing. I need this information long before I get to a problem area and with local radio (if I can find a station) I am already in the problem area before i get the information.

Satlite Radio is the Best Thing Since Sliced Bread Please Do Not Limit it!!!!!!!
